St. Cecilia Music Examinations

St. Cecilia Music Examinations International was established in 1974 by music teachers and performers who recognised the need for a different approach to the examining, assessing and qualifying music students. In so doing, St. Cecilia has revolutionized the examination system and has established itself as a market leader throughout the world.

Our examinations have been carefully designed to provide developing musicians of all ages and stages with an assessment which examines performance and technical skills whilst ensuring an enjoyable and valuable learning experience.

Each examination follows naturally to the next stage of development and for this reason we advise that grades not be missed or skipped. We are endeavouring to provide students with a positive ***examination experience*** as well as an accurate and fair assessment of their skills.

Students who demonstrate that they know the requirements and who perform accurately and confidently will always be successful. It is essential that teachers ensure that all students who enter for our examinations are therefore thoroughly prepared. Students who go beyond a technically accurate performance and who demonstrate sincere artistry and musicianship will naturally achieve higher results.

All our syllabuses draw from the latest repertoire and are designed to suit varying styles and tastes without compromising the need to master the fundamental requirements.

The technical requirements are developmental and are designed to give students a sound and secure technique. A strong technique allows for more opportunity to approach a broader repertoire.

We are confident that you will enjoy working with this syllabus and consequently experience the many benefits and rewards associated with it.

Welcome to St. Cecilia!

Notes On The String Syllabus

This syllabus has been designed to provide a structured course enabling the student to develop all the skills associated with performing an orchestral string instrument whilst choosing music from a wide selection of interesting pieces and publications.

In the Beginner, Junior and Preliminary levels, three pieces chosen from the item listings are required as well as technical work, ear-tests and general knowledge. Items do not need to be accompanied at these three levels.

Through Grades 1- 8, the candidate must play four pieces from the item listings. Three of the four pieces must be accompanied. A wide selection is available.

Candidates are also encouraged to explore the repertoire of their instrument and include suitable pieces in the “Own Choice” section. Care should be taken to ensure that the standard is representative of the grade level, however.

The graded examinations focus principally on music performance and technique as well as an understanding of the background of the chosen pieces and composers. Ear tests and sight-reading are not included but instead are encouraged to be taken as a separate examination.

The technical requirements have been structured to ensure a logical and sensible development. Scales and arpeggios are included in various forms and represent all practical keys. The emphasis is on even, confident and accurate playing. All technical work must be performed from memory.

As with all St. Cecilia examinations every detail on the score must be adhered to. Dynamics, phrasing, articulation and performance instructions enhance the final product and will be carefully assessed.

The “Programme Notes” section of the examination is vitally important. Up to and including Grade 4, examiners will ask general theoretical questions about any of the chosen pieces. From Grade 5 onwards a written account and discussion of one piece must be given. Students who successfully complete the St. Cecilia Theory of Music examinations at the same or higher grade level may be exempted from this section.

Students who wish to prepare an entirely performance-based examination may choose the Concert or Recital Certificate examination option. Explanatory notes as well as performance requirements are detailed in this syllabus.

Whilst we endeavour to ensure the availability and accuracy of the publications listed in this syllabus, we are aware that this may not always be possible. Teachers and students are encouraged to report any discrepancies which they may experience.

Concert Certificate Examinations

St. Cecilia's Concert Certificate examinations are available for all instruments and voice at all levels i.e. Beginner through to Grade 8. These examinations provide students with the opportunity to prepare and present an interesting Programme in a formal concert-style environment.

An audience may be present but the hiring of venues, including conditions of hire i.e. insurance, cleaning etc. remains the responsibility of the teacher or candidate.

EXAMINATION REQUIREMENTS:

- A minimum of four items must be presented which reflect an interesting and balanced Programme. A particular theme may be incorporated e.g. music of one composer; a reflection of a scene or mood; music from a particular country or culture. Imagination is encouraged.
- At least three items should be chosen from the current St. Cecilia syllabus e.g. for Concert Certificate Four, items must be chosen from anywhere within the St. Cecilia Grade Four syllabus. One piece may be an own choice selection.
- Appropriate formal concert dress and accepted stage presentation and etiquette (bowing, audience acknowledgement etc.) are also assessed. School uniform is not considered appropriate.
- An imaginatively set-out written programme containing interesting and informative details on all the chosen performance pieces must be presented to the examiner. Relevant biographical details about the performer are appropriate. An accurate timing of each piece must also be indicated. A technical analysis is not required.
- Technical work (scales etc.) is not a requirement for these examinations.

Concert Certificate examinations must fit into the following time limits. The times below represent actual playing time with a maximum 20-second allowance between each ITEM. If necessary, repeats may be played. It is acceptable to include more than one piece within an item e.g. combining two pieces of similar character, title, text or by the same composer.

Beginner, Junior Concert Certificate	-	2 to 10 minutes
Preliminary Concert Certificate	-	3 to 10 minutes
Concert Certificate 1	-	5 to 10 minutes
Concert Certificate 2	-	6 to 10 minutes
Concert Certificate 3	-	7 to 10 minutes
Concert Certificate 4	-	9 to 12 minutes
Concert Certificate 5	-	10 to 15 minutes
Concert Certificate 6	-	12 to 18 minutes
Concert Certificate 7	-	14 to 20 minutes
Concert Certificate 8	-	16 to 22 minutes

CRITERIA FOR ASSESSMENT

- **The manner of dress.** As for a public performance. Students who do not dress formally must accept their low assessment in this area. Attention to footwear should be considered. School uniforms are not considered appropriate. It is better to be over-dressed rather than under-dressed.
- **Confident and dignified stage presentation.** Students should observe professional performers in action and endeavour to emulate good stage etiquette and presentation. Half-hearted bowing etc. will attract few marks as will apologetic, immature and insecure stage manners. The performer may address the audience if relevant and appropriate.
- **An impressive performance.** Technical fluency is expected for a public concert/recital and audiences (examiners) are unsympathetic with second rate or unprepared presentations. All notes, rhythms, dynamics etc. must be mastered perfectly. A musical and artistic rendition is expected even at the elementary levels. Performances from memory earn additional marks.
- **A smart, written Programme.** The programme must be printed accurately with attention to correct grammar and spelling. Examiners will not accept amateurish presentations which imply very little care or effort. Proper use of computer programmes to deliver a smart-looking and imaginative outcome is part of the assessment in this section.
- **Attitude.** The performer must maintain a dignified and controlled attitude throughout the entire performance. Disorganised, apologetic or uncontrolled performances will not be acceptable and will not constitute a pass standard.
- **Page turners & stage managers.** Performers are responsible for their entire performance including page turning and equipment usage. A stage manager and/or page turner (who may be the teacher or parent) may assist in a professional and discreet manner. They must not address the examiner or audience. Stage managers and page turners should be attired appropriately.
- **Accompanied items.** At least three of the four items must be accompanied by instruments where the chosen music includes a written accompaniment. These instruments are typically orchestral strings, woodwind, brass and singing. The accompanying instrument may not necessarily be restricted to piano. Guitar or small ensemble accompaniments are acceptable.

Recital Certificate Examinations

St. Cecilia's First Recital Certificate and Advanced Recital Certificate examinations are available for all instruments and voice. The Recital Certificate allows students to present a full recital in a formal environment. Additional time is allocated for this examination allowing the student greater flexibility with Programme choice.

An audience may be present but the hiring of venues, including conditions of hire i.e. insurance, cleaning etc. remains the responsibility of the teacher or candidate.

EXAMINATION REQUIREMENTS:

- A minimum of four items must be presented which reflect an interesting and balanced Programme. A particular theme may be incorporated e.g. music of one composer; a reflection of a scene or mood; music from a particular country or culture. Imagination is encouraged.
- Items may be chosen from any recognized examination board syllabus but at least one item must be chosen from the St. Cecilia Grade syllabus. For the First Recital Certificate one item must be from the St. Cecilia Grade Five syllabus. For the Advanced Recital Certificate one item must be chosen from the St. Cecilia Grade Eight syllabus.
- Appropriate formal concert dress and accepted stage presentation and etiquette (bowing, audience acknowledgement etc.) are also assessed. School uniform is not considered appropriate.
- An imaginatively set-out written programme containing interesting and informative details on all the chosen performance pieces must be presented to the examiner. Relevant biographical details about the performer are appropriate. An accurate timing of each piece must also be indicated. A full technical analysis is not required.
- Technical work (scales etc.) is not a requirement for these examinations.
- The examination must fit within the following minimum/maximum time limits with an allowance of 20 seconds between each item. It is acceptable to include more than one piece within an item e.g. combining two pieces of a similar character, title, text or a piece by the same composer. If deemed artistically appropriate, repeats may be observed.

○ *First Recital Certificate:* 20 – 25 minutes of actual performing time

○ *Advanced Recital Certificate:* 25 – 30 minutes of actual performing time
